Holidays and food dangers

While everyone is busy getting all those holiday events and plans accomplished, please remember to be careful of what the dogs can get into. Dogs will be dogs. A reminder of the dangerous effects of sugarless gum and xylitol and the extreme hazard it can be. More times than not, ingesting it is fatal. A guardian angel was watching over "Declan", one of our Claire kids owned by Jeff and Paula, as she discovered he had gotten into her purse~~something he had never done. With the expertise of AVETS and Paula's 30 years as a vet tech rushed him to the ER in time. After 3 grueling days, he was discharged with no resulting damage. Accidents can happen very quickly to the best of us.
